## CREAR CUENTA DE GITHUB

## INGRESAR EMAIL Y CREAR CONTRASEÑA

## NOMBRE DE USUARIO Y SI QUIERO RECIBIR CORREOS DE ACTUALIZACIONES

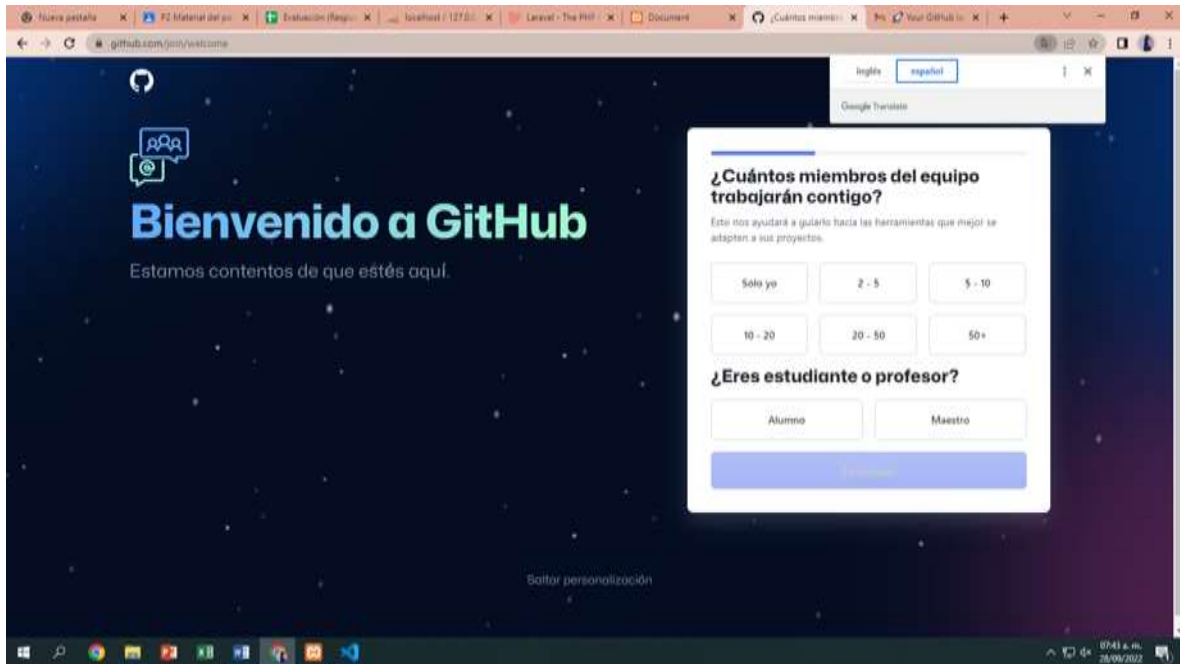

The screenshot shows the GitHub sign-up page. The browser's address bar displays 'github.com/signup?source=login'. The page has a dark blue background with a starry pattern. A central white box contains the following text: 'Welcome to GitHub! Let's begin the adventure.' Below this, there are two input fields. The first is labeled 'Enter your email' and contains the text 'alison28472@cbtis75.edu.mx'. The second is labeled 'Create a password' and contains a series of dots. To the right of the password field is a 'Continue' button. Below the input fields, a yellow warning message states: 'Password may be compromised Password is in a list of passwords commonly used on other websites'. At the bottom of the page, there is a small line of text: 'By creating an account, you agree to the Terms of Service. For more information about GitHub's privacy practices, see the GitHub Privacy Statement. We'll occasionally send you account-related emails.'

## VERIFICACION SI SOY UN ROBOT

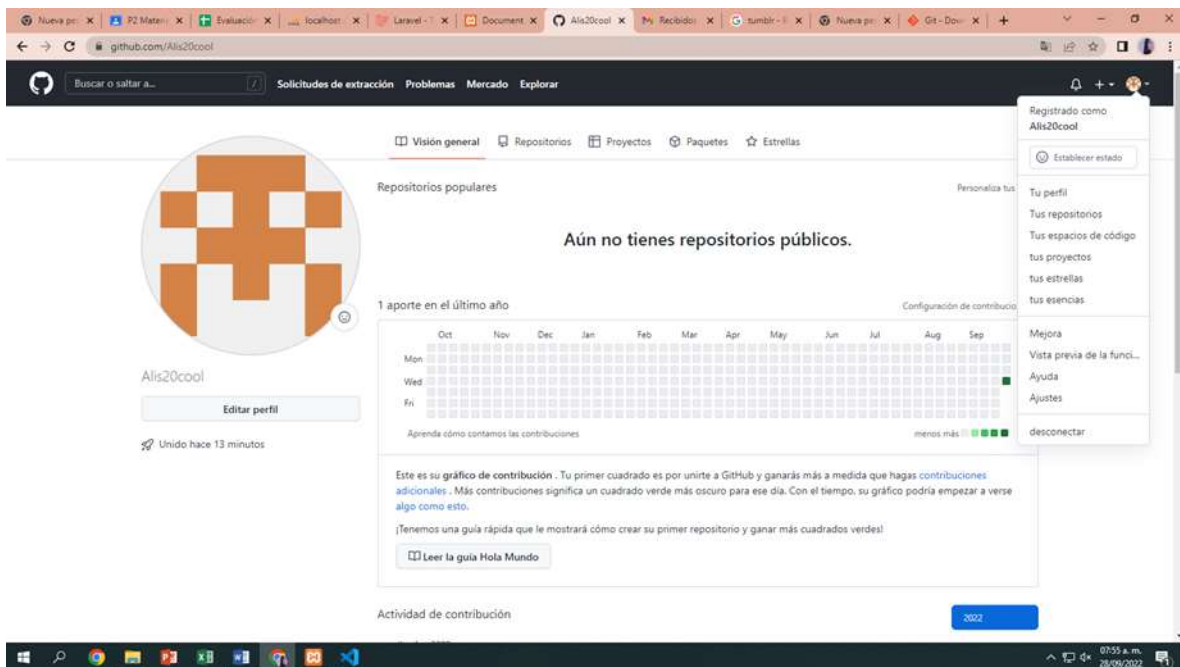

The screenshot shows the GitHub account verification page. The browser's address bar displays 'github.com/signup?source=login'. The page has a dark blue background with a starry pattern. A central white box contains the following text: 'Would you like to receive product updates and announcements via email? Type "y" for yes or "n" for no'. Below this, there is a 'y' character. Below the text, there is a section labeled 'Verify your account'. Inside this section, there is a CAPTCHA challenge with the text 'Elige la galaxia en espiral' (Choose the spiral galaxy). Below the text, there is a 2x3 grid of six images of galaxies. Below the grid, there are two buttons: a circular arrow icon and a speech bubble icon. At the bottom of the page, there is a small line of text: 'By creating an account, you agree to the Terms of Service. For more information about GitHub's privacy practices, see the GitHub Privacy Statement. We'll occasionally send you account-related emails.'

## Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner <sup>\*</sup> Repository name <sup>\*</sup>

Alis20cool /

Great repository names are short and memorable. Need inspiration? How about miniature-enigma?

Description (optional)

Public ☒ Anyone on the internet can see this repository. You choose who can commit.

Private ☐ You choose who can see and commit to this repository.

Initialize this repository with

Skip this step if you're importing an existing repository.

☐ Add a README file  
This is where you can write a long description for your project. [Learn more.](#)

Add .gitignore

Choose which files not to track from a list of templates. [Learn more.](#)

.gitignore template: None

**Quick setup — if you've done this kind of thing before**

Set up in Desktop or **HTTPS** SSH `https://github.com/Ali20cool/Act-123.git`

Get started by creating a new file or uploading an existing file. We recommend every repository include a README, LICENSE, and .gitignore.

**...or create a new repository on the command line**

```
echo "# Act-123" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/Ali20cool/Act-123.git
git push -u origin main
```

**...or push an existing repository from the command line**

```
git remote add origin https://github.com/Ali20cool/Act-123.git
git branch -M main
git push -u origin main
```

**...or import code from another repository**

You can initialize this repository with code from a Subversion, Mercurial, or TFS project.

Import code...
